

FROM THE BRIEF

- + Key purchase drivers include: lack of adoption from sales reps on using CRM, lack of visibility into sales process, poor forecasting ability due to insufficient/inaccurate data. CRM adoption is the symptom, while seller performace and buyer engagement is the key output.
- + The single most important thought we want to communicate is unprecedented visibility into the sales process, through the evaluation of all buyer and seller communications and the sentiment and level of engagement those communications produce, with NO CHANGE IN BEHAVIOR FROM THE REP.
- + Consolidate Accent's branding (logo useage, color palette, tag lines, layout, etc) into a more unified and cohesive look and feel across the entire organization.

AUDIENCE

- + CRM super charger personas = CSOs, Sales Leaders, Sales Ops (IT)
- **+ Connect** = CMO, Marketing Leaders, Marketing OPS (IT)
- + Accelerate = Combined

CONCEPT 2

Supercharge your sales (reps).

It's a fact of life that sales reps hate entering data into CRM.

And even when they do it's often incomplete—leading to an equally incomplete picture of situations and relationships. Accent CRM Supercharger offers a smart solution. It auto-detects all sales activities and automatically adds them to your CRM. Reps spend less time entering data. And more time selling. Leading to the kind of performance that just may warrant a standing ovation.
